Summary

Hey there! I'm a software engineer and I'm excited to take my skills to the next level by exploring UX/UI design. I'm all about creating interfaces that are easy to use and can enhance the user's experience.

Outside of work, you'll find me geeking out about fashion. # . . .

I believe that technology can help make fashion more accessible and inclusive for everyone. I'm also a big advocate for equity and diversity in the tech industry and beyond. I think that bringing different perspectives and experiences to the table is crucial for creating products that are truly inclusive and impactful.

If you're looking for a UX/UI designer who is passionate about making things better for users, and committed to inclusivity, diversity, and innovation, let's chat! I can't wait to see what we can create together!

Experience

Software Development Apprentice

Boca Code

Mar 2023 - Jun 2023 (4 months)

During my time at Boca Code, I gained valuable experience in software development as well as UX/UI principles, including:

Learning how to work collaboratively in a team environment and gaining hands-on experience with industry-standard software development tools and technologies.

I have also Improved my communication skills through regular meetings and discussions with my cohort.

I've developed a solid understanding of web applications using technologies such as HTML, CSS, JavaScript, and React.

Education
